SD7300

DVD Player with
1080p Upconversion

Sleek design and 1080p upconversion to near HD picture quality combined with the flexibility of multiple playback options and REGZA-LINK® (HDMI®-CEC) make the SD7300 perfect for movie night at home.

ADVANTAGE

Video upconversion up to 1080p¹ resolution via HDMI® takes your current DVDs to a new level, for an amazing viewing experience on today's HDTVs.

HDMI® is a convenient, single cable AV connection. It transfers pure digital video and multi-channel audio to compatible home theater components and high definition televisions without scaling down or compressing the signal, keeping sound and picture quality pristine.

REGZA-LINK® (HDMI®-CEC)² makes controlling multiple components easy. Just connect your player to a Toshiba TV with REGZA-LINK® using an HDMI® cable, and then control them using one remote, no additional programming or setup required!

Multi-format playback capability supports DVD-R, DVD-RW, DVD+R, DVD+RW, VCD, SVCD, CD-R, CD-RW, and MP3 playback for true viewing flexibility.

Slim chassis height is combined with a high gloss black acrylic panel, silver accents, and a bright front display designed to complement today's home theaters.

PRODUCT & PACKAGING

Unit Dimension (WHD) in.	16.93 x 1.65 x 8.23
Carton Dimensions	18.7 x 3.35 x 10.63
Unit Weight	2.82 lbs
Carton Weight	4.09 lbs
UPC Code	022265003183

¹An HDTV or HD Monitor with an HDCP capable HDMI® or DVI input is required for video upconversion. To upconvert to 720p, 1080i, or 1080p resolution, a 720p, 1080i, or 1080p capable HDTV or HD Monitor (as applicable) is required.

²Use of REGZA-LINK®, which is a feature based on HDMI®.CEC, requires an HDMI®.CEC compatible display device. Depending on the display device specifications, some or all REGZA-LINK® functions may not work even if the display device is HDMI®.CEC compatible.

³Some DVD-R/DVD-RW and CD-R/CD-RW discs may be incompatible due to laser pick up and disc design. CD-R/CD-RW discs must be recorded using CD-DA method for CD audio playback. The DVD player may not support some MP3/WMA/JPEG recordings due to differences in recording formats, disc structure, or condition of the disc (use of CD-RW for MP3 files is not recommended). See owner's manual for more information.
